> whoami

I'm Ethan! I have a passion for solving problems and helping people.

My primary interests are in the fields of cybersecurity and networking, from Threat Intelligence and Incident Response, to data center design. It all excites and interests me. I am a proficient and independent worker but I am not afraid to ask for help if I need it. Besides my interest in emerging security technologies, I am an enthusiastic Formula 1 Fan, play a handful of board and video games and have participated in many Capture The Flags.

> Experience

Google - Security Engineering Intern

November 2023 - February 2024

- Worked with the **Incident Management and Data Forensics** team, which resulted in gaining practical experience in **triaging**, **investigating**, and **mitigating** operational incidents.
- Learnt and applied Google development practices, which resulted in gaining experience with the company's **dynamic and scalable software development** methodologies.
- Completed an intern project to build an **Incident Management training platform** that uses a **Large Language Model** to mark user responses.
- Leveraged my understanding of **Python**, **Javascript**, **HTML/CSS**, **Version Control Systems**, and **Dependency Managers**, which resulted in building the platform using these technologies.

Cisco - Technical Intern

July 2023 - September 2023

- Expanded knowledge on established and emerging technologies by engaging with industry professionals at Cisco.
- Gained experience with specific Cisco products like **Meraki**, **SecureX**, **Catalyst**, and their security suite.

David Jones Hornsby - Customer Service Desk Representative

November 2020 - December 2023

- Developed **problem-solving** skills by being the first point of contact for customer and staff issues, including refunds, returns, customer **feedback**, **salesforce** communication, and cash variances.
- Sharpened **critical thinking** and **adaptability** by finding solutions to diverse customer problems promptly and effectively.
- Achieved excellent customer service by consistently exceeding **sales KPI** expectations and accruing **>\$200,000 in transactions**.

Target Hornsby - Hard Goods Customer Service Assistant

August 2019 - July 2020
